

White Team: Procedures and Responsibilities

The White Team is responsible for the smooth operation of the competition. This responsibility includes setting up and maintaining the technical infrastructure, including hardware and networking. In addition, the White Team is responsible for scoring, managing disputes, and selecting the winning team.

Scoring

The White Team is in charge of scoring documentation, intrusion reports, and anomalies. The White Team will assign penalties if necessary. During the competition, the White Team will make sure scores are updated frequently and displayed to all teams. At the end of the competition, the White Team will determine the final ranking of the Blue Teams.

Disputes

If a Blue Team member, mentor, or coach objects to scoring, enforcement of the rules, etc., during the competition, he/she may contact the White Team to resolve that conflict. Questions may address rules, scoring, anomalies, or any other issues that may arise during the competition.
